Public worship at the usual hours. Morning

ing subject, "What Jesus taught concerning Himself. What is His permanent place and why?" Sabbath school at 3 o'clock. Evening subject, "Some attempted solutions of the problem of evil examined in the light of the Christian revelation."

Baptist Church, Pastor Rev. Hassall. Services Sunday, Jan. 23. Morning, 11, subject "The gathering," followed by Sunday School and Bible class. 3 p.m., services at Poplar Ridge school. Evening, 8, subject (2nd of series) "The Hidden Treasure." Wednesday, 7.30, prayer meeting.

The annual meeting of Knox church will be held in the church this (Wed.) evening at 8 o'clock. Reports of organizations connected with the church will be submitted, and a very interesting and profitable meeting is expected.

meeting the ladies will serve refreshments in the hall of the church, the congregation will spend a good time together.

St. Luke's Church, January
Septuagesima Sunday—8 a.m.,

Communion; 11 a.m., Morning Prayer; 2.30 p.m., Sunday School; 7.30 p.m., Evening Prayer. The vestry will meet on Saturday, January 22nd, at 8 p.m. in the vestry of the church. A large attendance is desirable.

DEATHS

PHILIP—Died, in this city, on Tuesday, January 13th, Grace Phillips, aged 25 years, beloved wife of Norman Philip of Red Deer. Funeral service, conducted by Rev. W. G. Brown and Rev. Hugh Macdonald, was held on Monday afternoon at 2 o'clock from the family residence.

WRIGHT—Died, at Evarts, on Sunday, January 15th, Anthony Wright, aged 79 years, father of Mr. Richard Wright.

Wright, of Evarts, Alta. Arrangements in charge of the Jacques-C. Funeral Home. Phone 61.

RASMUS—Died, at Hespero, on Tuesday, January 18th, George Rasmus, aged 77 years, of Hespero, Arrangements in charge of

Jacques-Orme Funeral Home. P.
61.

O meet the convenience of a number of our customers in the country, and in order that all may have an opportunity, no matter how far distant they reside, to share in this great stock adjustment sale, we have decided to continue it to the end of this month. We have had many words of warm appreciation of the splendid bargains that we are giving, and we want all to share in them.

BRIMPTON & GAETZ, LIMITED.

EDDLESTON WAR MEMORIAL

DEDICATION SERVICE

The following was taken from a Scotch paper. The memorial service was at a small parish about six miles from Edinburgh, Scotland, and among the list is the name of Major Sandeman, of Pine Lake, one of the heroes of this war, and well known by every old resident of Pine Lake.

On Sunday last the Eddleston Parish War Memorial was unveiled and dedicated in the Parish Church. In the autumn of last year it was resolved to place a memorial of the fallen in the Church, and the sum of £70 was willingly contributed. The memorial consists of a brass tablet, placed on the west wall of the north transept, and is visible from nearly every part of the church. The tablet is mounted on a teak foundation, and four feet long and two and a half in breadth. The border consists of simple lines broken by embossed roses. At the top centre is a crown and at the foot a cross. On the right and left centre is the Scottish thistle. The inscription runs as follows:

To the Glory of God, and in grateful and loving remembrance of the men from this parish who died for their country in the War, 1914-1919.

Private Robert Arbuthnott, Royal Scots.
Private Mark Benson, Scottish Rifles.
Private Thomas Cockburn, Royal Scots.
Private William Forsyth, Royal Scots.
Sapper Thomas Fullerton, Royal Engineers.
Conductor John Gillespie, Nyassaland Reserve.
Private William Hogg, King's Own Scottish Borderers.
Private George Jamieson, Royal Scots.
Private William Laidlaw, Royal Scots.
Private Peter MacDonald, Royal Scots.
Private Donald MacLellan, Royal Scots.
Private Thomas Ormiston, Royal Scots.
Private George Russell, Cameron Highlanders.
Major David Sandeman, 5th Canadian Infantry.
Private John Scott, Royal Scots Greys.
Brigadier-General A. Wolfe Murray, C. B.
Private Thomas Wyper, Royal Highlanders.
Private William Wyper, Royal Scots Fusiliers.

"At the going down of the sun and in the morning we will remember them."
The last two lines of the inscription are taken from Lawrence Binyon's poem, "To the Fallen." At the hour of service the beautiful little church of Eddleston was crowded. Many who had fought in the war were there to honour their fallen comrades. The Moderator of the Church of Scotland, the Right Rev. Dr. Marj, conducted the service, which

EFFORT TO KEEP UP ENOUGH STEAM

Was So Run Down That He Was Tired Out All the Time—Tanlac Restored Him, He Says.

Still another well known railroad man to come forward with an unqualified endorsement for Tanlac is Charlie Irvine, of 2009 York Street, Vancouver, B.C. Mr. Irvine is employed as a fireman on the Canadian Pacific Railway, his run being from Vancouver to North Bend.

"Before I began taking Tanlac," said Mr. Irvine, "I was in a badly run down condition, and my appetite was so completely played out that often even the smell of food would nauseate me. Headaches nearly drove me frantic, and at times my back pained so bad that it was difficult for me to keep a good head of steam in the old engine."

"Some days it was all I could do to hold out at my work, and at night I was so restless I could scarcely sleep. Many a morning I would get up feeling as tired as when I went to bed and I simply dreaded to go to my work."

"Well, it wasn't but a little while after I started on Tanlac that I began to pick right up, and now since taking Tanlac has certainly built me up and put me in fine condition, and I'm glad of the opportunity to let others know what it's done for me."

Tanlac is sold in Red Deer by Gaetz-Cornett Drug & Book Co., and by the leading druggist in every town.

FAMOUS LOST SECRETS

London Tit Bits: Taking into consideration the marvelous strides we have made in almost every branch of knowledge during the last two or three hundred years, it seems exceedingly strange that our forefathers should have been able to do things which we find impossible, or next to impossible, and that we cannot discover secrets which our most advanced scientists cannot solve. Thousands of years ago, for instance, the Egyptians used to embalm the bodies of their dead kings and nobility so perfectly that the bodies are in wonderful preservation today, as may be seen at the British Museum. Clever as we are in this

FORESTS OF CANADA ARE SOURCE OF RICH REVENUE

LOG BOOM ON A NEW BRUNSWICK RIVER

Canada's 225 million acres of merchantable timber is the second largest asset of her natural resources. The bulk of this timber is within easy reach of tidewater. Nova Scotia, New Brunswick and British Columbia can almost dump their logs in the ocean, while Quebec and Ontario have the St. Lawrence River for a path to the sea.

In 1908 the greater part of Canadian lumber exports went out in the raw state, only a little over one-third was manufactured in Canada. The next ten years saw a strong and continued increase in industrial development and by 1917 the tables had turned. At that year more than 70% of Canada's lumber exports were manufactured and less than one-third left the country in a raw state.

Ever increasing demand for pulpwood and paper is responsible in large measure for this rapid development. American imports of Canadian woodpulp (all kinds) for four months, ending July 31st, 1920, amounted to \$30,820,281. According to latest statistics Canada's available supply of pulpwood is 591,000,000 cords and covers 360,000 square miles. Over a third of this species and balsam stands in the eastern provinces; convenient to the eastern states with their many newspapers and publishing houses. It is estimated that, at the present rate of cutting, this supply will hold out for 62 years. Strict cutting regulations, wise conservation and reforestation plans are looked to to prevent the annihilation of Canadian forests and lumbering industries.

British Columbia's woods are attracting much foreign capital. American money is going into new pulp and paper mills on the Pacific Coast. Approximately 85% of all capital invested in the paper pulp industry in Canada is American. An English syndicate is building a \$250,000,000 factory in British Columbia. Low freight rates flourish all over the province the small fruits, vegetable, honey and poultry run has of the southern part of the province for their produce to market. British Columbia's strategic situation for shipping to Pacific Coast ports and the Orient, its numerous good harbours and the fact that the climate permits all the year round kind of business have not been overlooked by capitalists seeking investment.

age, we cannot do the same. The valuable secret is lost, and modern science cannot recover the lost knowledge. We can, of course, and we do, embalm bodies, but only for temporary preservation, and, comparatively speaking, in a most unsatisfactory manner. Bodies which are embalmed nowadays will not be preserved for more than a few years at most; very many of the bodies the Egyptians embalmed before the birth of Christ are still so perfect that the lines of their faces are still as clearly marked as when they were first embalmed.

Sheffield turns out the finest, hardest and most perfect steel the world produces; but even Sheffield cannot produce a sword-blade to compare with those the Saracens made and used hundreds of years ago, and the Saracens never possessed the machinery we have, nor had the advantage of knowing so much about metals as we are supposed to know. A huge fortune awaits the man who discovers the secret which enabled the Saracens to make sword-blades so keen and hard that they could cut in two most of the swords used in our army today.

There are a dozen different methods of making artificial diamonds, but none of the stones produced by these methods can compare with those made by old French paste, the secret of which is lost. So perfect were paste-diamonds that it was difficult for even a person with expert knowledge of diamonds to tell that they were artificially produced, whereas most of the modern artificial diamonds can easily be detected, and their durability is nothing like so great as the old paste-diamonds; indeed, good paste-diamonds are now almost as valuable as real diamonds.

Probably not one out of every ten thousand buildings standing in all parts of the world and built by modern masons will still be standing five or six decades hence. We do not know how to put stones and brick together as the ancients did, and consequently our buildings we raise nowadays are really mere temporary structures, and will be in ruins when the ancient monuments of Greece and Italy, which were built thousands of years ago, are in as good condition as they are now. The secret is in the bricks or the stone, but in the cement and mortar, neither of which essentials can we make as the ancients made them.

In modern buildings the cement and mortar are the weakest points; in the buildings which the Romans built the Greeks raised thousands of years ago, the cement and mortar are the strongest points, and hold good while the very stones they bind together crumble away with age. We cannot, with all our science, make such cement and mortar, and, therefore, we cannot build such buildings as the ancients raised.

Chemistry, one might imagine, is the science which has, perhaps, made the greatest strides during the past few centuries. Yet modern chemists cannot compound such dyes as nations of today were still unborn. Now and again it happens that secretaries after antiquities come across specimens of fabrics which were dyed thousands of years ago, and they are astonished by the wonderful richness

of the colors of the cloths, which, despite their age, are brighter and purer than anything we can produce.

Modern artists buy their colors already made, and spend large sums of money on pigments with which to color their canvases. The pictures of modern artists will be colorless when many of the works of ancient masters are as bright as they are today. Just as the secret of dyeing has been lost, so has the secret of preserving the colors of artists' paintings. Yet the secret was known to every ancient artist, for they all mixed their own colors.

How to make durable ink is another great secret we have lost. Look at any letter, five or ten years old, and you will probably notice that the writing has faded to a brown color, and is very indistinct. Go to my big museum, and you will find ancient MSS. the writing on which is as black and distinct as if the MSS. were written the day before yesterday.

The secret of glass-blowing, and tinting is not yet entirely lost; there are still a few men who can produce glass-ware equal to the things of this kind which the ancients turned out hundreds of years ago. But the average glass manufacturer cannot produce anything that could at all compare with some of the commoner articles the Egyptians, and later, the founders of Venice, manufactured; and those who still hold the ancient secret guard it so closely that it will probably die with them, and be added to the long list of things in which our ancestors beat us hollow.

DRURY AT AYLMER

There is room in Ontario for the growth of a new political movement right now, and it must not be confined to any class or classes. I am not arguing in favor of the U.F.O., or saying anything disrespectful to the old parties. My remarks are purely general. I declared the Hon. E. C. Drury in an address delivered before the Aylmer Chamber of Commerce at their first annual banquet, a few evenings ago. While refraining from making any reference to political parties, he urged the need of a new political consciousness. Mr. Drury went on to point out that everywhere one finds that the nations are forsaking old political parties and ideals and giving way to newer and more progressive ones. Such a movement was inevitable in Canada.

The Premier also made an eloquent plea for better relations between the great English speaking peoples on this continent. "Canada occupies a unique position as the connecting link between Great Britain and the United States. We are a neighbor of one and a daughter of the other, so our geographical and blood relation enable us to interpret one to the other and form a link between the great heads of the English speaking race." Mr. Drury made a plea for a better understanding with our French Canadian citizens. "It is rank treason to do anything to stir up racial and religious strife in a country that possesses two great races such as Canada possesses." Altogether the address was a plea for greater harmony in our political, national and international relations.

TO SOLDIER SETTLERS' WIVES

The Home Branch of the Soldier Settlement Board is having a series of Short Courses for soldier settlers' wives. The centres for these are Grand Prairie, Peace River, Edmonton, Red Deer, Calgary and Lethbridge.

A splendid program of lectures and demonstrations will be given by the Extension Department of the University of Alberta, Department of Public Health and Women's Institutes.

In each city the women's organizations are billeting and arranging for social gatherings for the women who attend the course.

Although the course is arranged specially for wives of soldier settlers, yet the lectures are entirely open to the public.

The course for those in the Red Deer District is in Red Deer, February 4th to 12th.

Further information and application forms may be obtained from Miss Fern Horton, Director Home Branch, Calgary, Alberta.

CONTAGIOUS ABORTION

Up to the present time no specific cure for contagious abortion has been found. A plea about a week being done on this subject by veterinary pathologists and it is hoped that by their combined efforts some remedy will be discovered that will prove efficient in controlling this prevailing scourge.

As is frequently the case in connection with diseases of this kind, some unscrupulous persons have taken advantage of the situation to foist so-called abortion cures upon the farmer. The apparent success of some of these remedies is due to the fact that cows rarely abort more than twice, and after the second abortion hold their calves for the normal period, and the fake cure receives the credit. There are a number of our leading reputable drug houses, who produce germs and anti-toxins which are

worthy of a trial by veterinarians. Reputable houses do not claim that these biologics will cure abortion, but they advise their use in conjunction with other measures for controlling this disease.

Farmers may rest assured that as soon as a cure for contagious abortion is discovered, the Department of Agriculture will be the first to advocate its use and the treatment will receive wide publicity.

Many of these fake cures claim to cure milk fever, sterility, scours in calves, all kinds of abortion, whether of a contagious origin or not, increase the milk flow, and perform a host of other bovine miracles. These claims are, of course, absurd and hardly deserve attention if it were not for the fact that many farmers are falling for this kind of thing, and are wasting their hard-earned good money for the benefit of enriching a few people who are devotees of quackery.

The Department of Agriculture should take the lead in this matter and introduce some form of legislation which would compel all vendors of patent medicines to state on their labels the nature and constituents of the drugs that these medicines contain. There are a number of excellent proprietary preparations on the market and firms which are putting up honest and useful remedies should be the first to welcome such a measure. It is a well known fact that from side the farmer the following are classified with the fake.

The loss by fire in Canada during 1920 amounted to \$27,571,574, and shows an increase of \$4,000,000 compared with the figures for 1919. The figures are exceeded by the loss during 1918, when the exceptionally high figure of \$32,000,000 was reached. The loss by fire during December amounted to \$3,386,475, and exceeded any other month during the year.

DRURY FIRMLY
AGAINST CLASS
POLITICAL PARTY

Supports U.F.O. as Farmers' Organization, but Sees Short Life For It in Politics.

Toronto, January 16.—In a long distance telephone interview with E. C. Drury, at his farm home in Crown Hill, Simcoe County, the Globe quoted the Premier as making the following statement with reference to the U.F.O. being a political organization. "The political organizations here, the United Farmers of Ontario must live its own life distinct from that of the parent. It is a well known and established fact that the farmers have established a platform which appeals to other classes in the community besides the farmers."

"In this new political movement the farmers will always have an important and powerful place. But to refuse to men and women of other classes or other industries an equal place in this political movement would predestine it to a short and ineffectual life."

The Globe says that Premier Drury does not like the principle of an association becoming a political party. He wants it clearly understood, however, that he is ardently in favor of the United Farmers of Ontario as an organization for the great good it can accomplish for the farmers and declares that there is a great need for it to continue in the tremendous work it is performing for the benefit of the rural people.

The political party born of the farmers will continue as a close corporation admitting farmers only or shall invite men of other pursuits, but of the same ideals and aims. Mr. Drury is not attacking the farmers' organization, he is endeavoring to broaden the political future of the party which sprung from it.

Further, the Globe says that Premier Drury does not like the principle of an association becoming a political party. He wants it clearly understood, however, that he is ardently in favor of the United Farmers of Ontario as an organization for the great good it can accomplish for the farmers and declares that there is a great need for it to continue in the tremendous work it is performing for the benefit of the rural people.

The Premier says that was part of our law, I would tell him if he were in this room today that he does not know anything about the U.F.O. The last sentence looks as if it were made by an old-time politician. If the farmers had not gone into politics, Mr. Drury would not be holding the position he is now, but would be back in the farm. If he felt like this why did he take the leadership? I think it is most likely been misinterpreted. President Burnaby cautions.

President R. E. W. Burnaby, of the United Farmers of Ontario, today said he will make a definite statement next week, but said he did not know what to think when confronted with Mr. Drury's statements. President A. A. Powers, of the Farmers' Co-operative Society, said: "It is possible Mr. Drury has been misquoted. I would like to know what he said. It seems hardly possible that he would make such a statement, because it is most peculiar that we have already gone into politics and I don't see how we can succeed without an organization behind us."

He said this was no original law of the organization. It was not to go into politics but they were to have nothing to do with either of the old political parties. The first place it was intensely political," he said.

The farmers' movement is organized by the nature of its impulse to organize for political action but not necessarily for political purposes or to control them, said Gordon Waldron, solicitor for the United Farmers of Ontario. The farmers are learning by political experience to hold together and withstand the forces of dissolution or any parliamentary assembly. If to maintain any government or set of statements the farmers desire their organization, they must be everybody into it they would be back in the same position as before they organized."

SIR ROBERT BORDEN MENTIONED
AS NEXT GOVERNOR-GENERAL

Ottawa, January 13.—In a letter to a local paper, Hon. J. E.wart, K.C., suggests the appointment of Sir Robert Borden as governor-general of Canada. "He has done a great deal of hard, conscientious work in the service of Canada," Mr. Ewart remarks, "and has well earned the right to be his first victory."

Mr. Ewart adds that he proposed Sir Wilfrid Laurier as governor-general when Sir Wilfrid was alive but out of office.

ST. LAWRENCE SHIP CANAL
DENIED AS IMPRACTICABLE

Albany, N.Y., January 13.—The proposed St. Lawrence ship canal, which has been condemned as impracticable in the annual report of State Engineer Frank W. Williams, has been referred to the New York legislature last night. He recommends that if any ship is to be built, it should follow the route of the present Oswego canal and the eastern portion of the Erie branch of the barge canal system.

AN APPEAL
FOR CLOTHING

Editor News—May I make an appeal through The News, to the people of the district, for their coat of seven children, and for our suffering fellow citizens in Southern Alberta. The writer was permitted to serve on the committee for Belgian relief. This committee asked for clothing for the suffering people of Belgium. The response was wonderful.

This winter in the provinces, where the cold is more intense than in Europe, we have children, women and men in dire straits. They are suffering from the cold. They are living on the bare necessities. Will you help? Please forward your money, or your clothing, or your food, or your medicine, or your help, received at Central U. F. A. office.

I thought I would write to you as we are very badly in need of clothing for the coming winter. We have a list of family of seven children, and hardly any crop for the last four years. This year is the worst, and we don't have any money. We are trying hard to move out, but we don't know what to do, as we need money for moving. Could you please help us a little by sending us some clothing? We are the help of the Belgians. Shall we help our fellow citizens?

I am not ungrateful of your generosity in answering my appeal. If you cannot help, let's have your very sympathy.

Leave your donations with L. M. Gatz at Mr. W. J. Botterill's office, or with L. A. Parry at the U. G. G. elevator.

Faithfully,
HARRY WALLACE, Sec. U.F.A.

PIONEER DEPARTS

(Instillat Province). The death of William Kemp, evened of William H. Kemp, came as a distinct surprise and shock to all Instillat. Though he had been somewhat unwell for a long time, but still always able to be up and around, there was no indication that his death would come so suddenly.

On Sunday evening, as was his custom, Mr. Kemp attended the service around the house. Going inside, he sat down for a moment, shortly afterwards he fell forward on the floor, and he was found dead. Several minutes later, as he was quietly sitting in a chair, he fell forward on the floor. Mr. Kemp immediately summoned a doctor, but nothing could be done for him. Mr. Kemp had evidently been dead when he fell.

Mr. Kemp was one of the real pioneers of the district, having lived in the district over thirty years ago, and residing in Instillat for the greater part of this time. He was in his 61st year.

The funeral took place from the family residence to Instillat cemetery on Monday afternoon. It was attended by a large concourse of friends of the family from far and near.

The funeral was conducted by the Rev. J. A. P. of Old, formerly pastor of St. Andrew's Presbyterian church here, conducted the services, and the pallbearers were the friends of the deceased—F. W. Archer, A. W. Peck, John A. Wilson, J. D. Lauder, E. J. Dold and Neil Cameron.

IDLE THOUGHTS OF
A BUSY FARMER
ROYAL
YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

NURSING SERVICE

A Nursing Service in the Rife district, many miles north of the main line of the C.N.R., on the shore of Moose Lake, has been established by the Alberta Division of the Canadian Red Cross Society. Rife is the centre of an English speaking soldier settlement, but most of the settlements to the north and east are Russian. The nursing service has been very good, and Miss A. J. Peacock, the graduate nurse in charge, who has been working in the district for some time, is doing a fine job. She left Calgary for the north on December 1st, and arrived at her destination a week later. Miss Peacock was trained in Rhode Island Hospital. She is a Canadian, a native of New Brunswick.

Before the establishment of the Red Cross service this month, the nearest point at which skilled attention of any kind could be obtained, was St. Paul de Metis, and the expense of bringing a doctor from that point was \$20.00. During the past summer, the soldier settlers of the Rife district organized a branch of the Red Cross. They have made themselves responsible for the provision of accommodation for the district nurse, and for her transportation. The Provincial Division of the Society will assist in financing.

In the Russian colonies, where there is intense poverty and ignorance, the need for skilled nursing is urgent. Miss Peacock is now teaching the Russian mothers the proper care of their children. In itself it is a most formidable task. The English speaking settlers, however, practically all the families of returned men, are giving the assistance within their power.

In behalf of the Alberta Division of the Canadian Red Cross Society, an appeal has been made by the U.F.A. to every citizen of the province. "The Red Cross Society is the most efficient and well organized body for the distribution of relief in Canada today, but cannot carry on this noble work without funds," states the letter signed by H. H. Higginbotham, Provincial Secretary of the U. F. A., and Miss J. B. Kidd, acting Provincial Secretary for the U. F. A. The letter shows that, against receipts, the Provincial Red Cross has distributed \$23,541.20 worth of clothing, consisting of \$7,350 garments, boots, moccasins, blankets, etc., to 1,007 families, during the past year, while against his outlay the Society received contributions for relief of only \$23,000.

The farmers' Cross will be conducted through the U.F.A. central office in Calgary, to which all contributions of money which should be sent, contributions of clothing being sent to the Red Cross Depot, O'Sullivan Block, Calgary.

IS YOUR PARTNER OR YOURSELF
TO BLAME?

Is your married life dull and drab and irksome? Do you look upon your married life as being devoid of sentiment and condition in which you find yourself and from which you can see no honor or pleasure? Are you at times uneasy and dissatisfied?

Do you feel that the one to whom you are bound is perhaps not the right one for you after all and it is no use pretending any longer?

Do you look at other married people and wonder how they can seem so contented and happy? Do you feel so blue and feel so fettered?

At such times you think their marriage was probably the result of real love and you wonder what it is, infatuation, interest, or a desire to have a home and the result of loneliness which made you take the all-important step which binds you now?

You thought you would have more freedom—you have less.

You look for companionship and you find many differences in taste and viewpoint, and you are discouraged.

THE JOY OF WORKING FOR WHAT
YOU GET.

Your father did not leave you a comfortable income, so it has been your duty to work for your own salvation in the cold, work-a-day world; but this may be a blessing rather than a curse.

What would you have made of yourself if handicap after handicap had not driven you to work for your own salvation? The man who has never had a desire that was not met does not get half so much real joy out of life as you.

You have something to look forward to, and take pleasure in the contemplation of the future.

You know that you do not enjoy lots of little things now when you find them too busy to get.

It is the successes you must work and earn which count. Looking forward into the future, you must acknowledge that you do not want to see everything coming your way all the time, with no credit due to your own brains or brawn. It is good to strive and grow with the striving.

IDLE THOUGHTS OF
A BUSY FARMER

Doch-and-doris! How many readers of The News know what doch-and-doris is? The old-time doch-and-doris was a game played by a group of boys and a grampson was playing one of Harry Leuder's, in which there was a "doch-and-doris" and the boys were waiting in a "but and ben" and with some resident Scotsmen in the back of the woods, I said jokingly, "I don't believe one of you fellows know what a doch-and-doris means or what a but and ben is, and I don't believe one of you fellows didn't. In the good old days it was the custom of the host if you stayed at a private hotel, or mine host if you put up at a tavern, to take to the departing guest as he mounted his horse a farrowed milk or stirrup cup, other wise doch-and-doris. This was the last drink taken at that house, and from this the expression this is doch-and-doris has come to mean this is the last drink. In Scotland most cotters live in a two-roomed cottage with a lot above; the kitchen and living room is the but and the best room the ben. When you go to visit a Scot, and he or she says "Que ben the house" or "Come awa ben" it is the equivalent of a Canadian housewife's request to "Come and sit in the parlor."

Having got tired of rubbing on the phone, writing up the photographs and reading about what McKenzie King would have done had he only been there, we took out our collie and tuned our heavenly harp for the spirit wireless. Getting our old man on the line, we queried for the latest in celestial gossip. "Say," he said, "you know old B—, the well known alchemist, who recently got off this mortal coil. When he arrived at the pearly gates he wished to walk right in because he was a leading deacon of his church, but St. Peter required better proof of eligibility to paradise. "Well," continued B—, "once when I was going through North Red Deer I saw a hungry-looking kid and I gave him two cents to buy an apple for supper. The kid called up Gabriel to know if such an act entailed in the books. Gabriel replied B— was credited with two cents given a child. B— further stated that on Gatz Avenue he had given a half-frozen square to a boy to help him buy a ton of coal. Gabriel corroborated this by saying the books showed three credit, plus one square. B—, however, could think of no more acts of generosity. "What about the time I gave a boy a pig?" asked St. Peter. "Do you think we could let him in on these two items? What do you say?" B— asked St. Peter. "I think the best thing to do would be to give him five cents and let him go to the pearly gates."

R. W. E. Burnaby, president of the U.F.O., and the Canadian Council of Agriculture, were in the city on Tuesday. "With an embargo preventing our export of live stock to England, and a 30 per cent. duty on live stock in the U.S., there is little encouragement to a man to improve the breed of his animals. If a farmer has a good cow, he may need, neither a smart Alec or a wild jammer, nevertheless he believes in making that statement. Mr. B. W. E. Burnaby is away off. With all the handicaps he speaks of the only man who will be able to get the cattle market in the city who has the good stuff. The man who breeds scrubs for the local market is liable to find that market overstocked."

DUBLIN ALIVE
WITH RUMORS OF
IMPENDING EVIL

Sinn Féin Leaders Aim to Get Extension of Martial Law Area.

Dublin, January 16.—The period of comparative quiet which began in Dublin last week, after the shooting of a Sinn Féin leader, has been shattered. During the past week there was a continuous succession of tragedies in which Crown forces and persons identified with the Sinn Féin movement appeared to have suffered more or less serious injuries.

The atmosphere in Dublin is now similar to that in Cork before martial law was declared. The police are coming afraid to venture into the streets owing to the number of considerable means of escape. The city is alive with rumors of impending trouble.

According to reports, the hundreds of armed Crown forces which previously have been stationed chiefly after the curfew hour, will take place in the heart of the city, regardless of such attack to pedestrians, for the purpose of forcing an evacuation of the martial law area to the metropolis.

That martial law will be instituted generally is credited. The belief prevailing in some quarters is that it will be put into effect in the next few days and be accompanied by the changing of the curfew hour from 10 o'clock at night to eight o'clock.

Sammon DeValera is said to have spent a busy week conferring with his associates and attending at least one "cabinet meeting," at which the heads of all the principal departments of the "Sinn Féin government" were present. It was stated that the "Republican government" will continue to function without interruption.

Regarding De Valera's delayed manifesto, it is stated that it may not be issued until the end of this week. It is understood that it will contain a review of the situation as De Valera found it on his return from the United States and perhaps deal with the results of recent attempts to bring about peace negotiations.

300 TAKEN PRISONERS
Belfast, January 16.—Crown forces on Saturday swept through the district of South Armagh, the scene of recent alleged Sinn Féin activities, with great thoroughness. Troops and constabulary of the Ulster "Specials" cooperated.

Every road was under supervision. More than 300 prisoners were taken in various nets, but after a rigorous examination only 40 persons were held in the military barracks.

DISORDERS AFTER CORK GAME
Cork, January 16.—Serious disorders followed the shooting of a match in which two detectives "in plain clothes" were wounded. The disorders occurred while a show was being displayed from a football match and parties of police were trying to clear the streets. Altogether twelve persons

were wounded during the firing, while exiles officer Pring was killed by a stray shot from a passing lorry.

The exiles officer had come to his home here for the week-end, and was walking in the street with his brother and sister.

MURPHY EXECUTION POSTPONED
Dublin, January 16.—The execution of Joseph Murphy, which was due to take place tomorrow, has been postponed to Wednesday pending a hearing of an appeal for the quashing of the court's death sentence. The court martial found Murphy guilty of having led an attack in Cork on October 8, against the military when Murphy is alleged to have carried a bomb and a revolver.

DUBLIN AREA CORDONED
Dublin, January 16.—The whole section of North Dublin was cordoned by soldiers and police last evening and today. The street railway service along the North Quay was suspended. The centre of the cordoned district includes Church Street and the

place where the military were ambushed recently and North King Street, the scene of fierce fighting in the Easter rebellion.

A total area of a square mile is surrounded, and the biggest road Dublin has yet experienced has been under way. Only the military have been engaged inside the cordon, and it is believed every house within the area has been systematically searched, the raid lasting several days. Hundreds of soldiers are taking part, and the kitchens are providing them with food.

MUST MOVE DOWNSTAIRS
Dublin, January 16.—Troops today occupied a wide area in the city of Dublin. Houses commanding the street were entered and the inhabitants of the upper floors given twenty minutes in which to move down stairs. Machine guns were placed in windows and barred wire erected.

The entry area was enclosed and the inhabitants are virtually prisoners. Searchlights tonight are making the streets as bright as day.

City of Red Deer

DOGS.

1. By-law No. 229 of the City of Red Deer, provides that every owner of a dog shall annually, on or before February 1st procure a license for such, to be attached to collar, and no dog to be permitted to run at large without collar and tag.
2. Dogs running at large without collar and tag will be impounded and if not redeemed within three days will be sold or destroyed.
3. Any person removing collar or tag from a dog shall be liable to a fine.
4. The owner of any dog running at large that attacks any person, chases vehicles or horses or does any damage will be liable to a fine or to have the dog destroyed.
5. Any person found guilty of an infraction of this By-law shall be liable to a fine of not less than \$2.00 or more than \$10.00 or 30 days in jail.
6. Licenses may be procured from License Inspector Chas. Anderson or from the City Office.

Wood for Sale.

The City has a few loads of kindling wood for sale at \$3.00 per load. Orders may be given to the City Office.

Dairy Butter

There is absolutely no
 market for dairy butter in
 excess of the limited local
 demand, which is not con-
 suming half as much as is
 being offered.

Following is advice of
 January 15th from one of
 the largest wholesale deal-
 ers in the produce business:

"We have endeavored to find a
 market for Dairy Butter, but have
 been unable to do so; therefore,
 suggest you encourage farmers in
 your territory to discontinue
 making Dairy and ship Cream,
 for which they will realize more
 than by making Butter. Also do
 not buy or ship up any Dairy But-
 ter without first taking up with
 us, as we are not in a position to
 quote you any price at the present
 time. We wish to warn you as
 you are liable to take a heavy
 loss."

We have canvassed every
 market without success in
 disposing of any quantity,
 and we believe the advice to
 farmers in above letter is
 timely, which is our reason
 for quoting it.

RED DEER FAIR

At a meeting of the Red Deer Agricultural Society's directors the City Hall there were present Mr. Bjorklund, President, in the chair; Mrs. J. J. Gatz, Messrs. McEwan, McKinnon, Day, Botterill, Eggenkrantz, Welliver, Gamble, Richards, S. Blair and Mr. Welton, secretary.

Mr. Bjorklund reported on the success of the Institute meeting on Poultry Raising at the City Hall.
The membership fee of \$100 in the Western Canada Poultry Association was directed to be paid.

Object to Midway
A letter from the North Battleford Agricultural Society was read, urging drastic changes in the character and quality of the midway at exhibitions. Their annual meeting had voted in favor of:

"Restricting the midway to 'rides' that is, ferris wheels, merry-go-rounds, whips, torpedoes and other mechanical devices, and of 'shows' consisting entirely of the other shows to which admission is charged and (b) side-shows, concessions, it being the opinion that the two latter have no educational features to recommend them, that they generally consist of 'bait' fresh-cut, confectionists, gamblers and swindlers and that their acts are exceedingly crude, heartless and very often vulgar and of a questionable nature. It was also the opinion of the meeting that many of the exhibitors, especially these shows are of a type who should not be encouraged to visit the exhibitions involving as their presence does additional police protection and incidentally additional expense for such protection."

"Further, it was the opinion that practically all of the people accompanying such shows are uneducated and that leave the community holding the exhibition poorer by many thousands of dollars and that the benefit—either educational or recreational—to the community from their presence are negligible."

The North Battleford Society asked the co-operation of the "B" circuit shows in effecting a change in the midway to a midway of the type that had asked Secretary Stark to take the Carnival Companies desiring engagement on "B" circuit and to be prepared at the annual meeting of the Association in Regina to make bids for furnishing a midway of the type that is a good variety of rides. High class platform attractions, they thought, should be considered.

Some informal discussion followed, those expressing their views being somewhat doubtful as to whether the proposed move was desirable and practicable. It was decided to leave the matter to the "B" circuit and to the Regina meeting. President Bjorklund was appointed the delegate.

The President outlined his plan of increased grants from the Breeder's Associations consequent on heavier prizes for live stock. The President figured out that, assuming the receipt of increased grants from the breeders, there would be no other financial burden on the Society in increasing the list.

It was decided that the matter be left in the hands of the President and Mr. Day with power to act, and that the Board suggest to the President to be sent to Toronto to interview the Breeder's Associations.

Mr. Richards asked the prizes in the Children's Stock classes should be increased, but the President and Mr. Day believed that the prizes were generous enough, the difficulty in getting adequate children's exhibits was not there.

Messrs. the President, McKinnon, Eggenkrantz, McPherson and the Secretary were appointed a Prize List committee, to meet in time to furnish the representative to Toronto with a draft 1921 prize list.

Messrs. Welliver, Botterill and Dr. McEwan were appointed the Racing committee.
Messrs. Welliver, the President, Gamble, and Galt were appointed a committee to clean up information for delegate to Regina re handling of concessions and dining hall.

The appointment of permanent committees was left over to the next regular meeting.

P. F. Caruthers wrote that he would have an excellent line of attractions for 1921.

Address—P.O. Box 590, Red Deer.

Three hundred and fifty foot rooms were added in Toronto Tuesday, with a view to gathering in men carrying concealed weapons. Only two men were found, the carrying a gun and the other a knife.

NEWS IN A NUT SHELL

The coalition government candidate slumped in the by-election at Hartford.

Cardinal Gibbons, of Baltimore, Md., is said to be rapidly improving in health.

The sixth session of the international labor bureau has opened at Geneva.

The condition of Augusta Vittoria, former empress of Germany, is said to be getting worse.

Nine thousand returned soldiers in Toronto are being given free medical treatment by the S.C.R.

The election of F. H. Plant as mayor of Ottawa has been confirmed as a result of votes.

One thousand delegates are in attendance at the U.F.M. convention being held at Brandon, Man.

Six residents of Vancouver were convicted of failure to comply with the income tax laws.

King Constantine has denied the report that Prince Christopher has been offered the Albanian throne.

Canada exported \$34,200,000 in gold to the United States during the year and received \$5,500,000 in return.

The second annual convention of the Western Canada Fruit Jobbers' association is being held in Winnipeg.

More taxes were collected in Moose Jaw during the past year than any other. Total levy for 1920 was \$1,014,886.

Winnipeg has made provision whereby unemployed veterans can receive medical attention free of charge.

The death of Mrs. W. H. Dennis, wife of the proprietor of the Halifax Hotel, has been announced at the age of 69.

Canada has concluded a new trade agreement with France which provides for an exchange of minimum tariffs.

Reduction of the American forces of occupation in Germany from 15,000 to 8,000 has been ordered by the war department.

King Constantine has stated that he does not believe the British wish a revision of the Sevres treaty with Turkey.

Former Premier Venizelos will not return to Greece, even if he is summoned by the king himself, it is reported.

French destroyers have sunk a transport carrying the Red Sea, near the Cape of Good Hope, and the crew escaped by swimming ashore.

The French minister to Greece insists that export of food and meats from Smyrna to Constantinople be carried out at once.

San Francisco is still experiencing one of the coldest spells in years. This condition still exists all over Lower California.

Plans for the establishment of a co-operative wheat and farm produce exchange will be discussed by the Manitoba government shortly.

John Maclean, commercial traveller, lost his life, and several were seriously injured when the Glace Bay, N.S. hotel, was destroyed by fire.

The condition of Mrs. George Foster, wife of Premier Foster of N.S., who is suffering from pulmonary pneumonia, is said to be improving.

President Wilson called in to settle the fight between the state and labor organizations as to the admission into the U.S. of Donald O'Callaghan.

Alejandro Lerroux, the radical leader, in a speech made at Madrid, declared that only a republican form of government could revive Spain.

Mrs. S. A. Farrell and Mrs. W. H. Hinton, wives of two of the lost U.S. sailors, do not believe story that they fought when they reached civilization.

Several stores, together with the bank of Commerce Bank, were destroyed by fire, which came nearly within the village of Brighton, Ontario.

Two fatalities have been reported from Toronto since the fire, which was caused by the fire in the building, and Alfred Hunt was burned to death as the result of a lamp explosion.

Prof. Stanley Chaplin, of Saskatoon, in a speech to the Agricultural convention here, advises the co-operation of field husbandry with the agricultural societies.

British are applying scientific methods to the destruction of Sinn Fein houses and strongholds in Ireland. Time and air-borne explosives are being used.

Ellis Powell, editor of the London Financial News, declares that Canada and the United States is destined to dominate in the future the whole American continent.

The Aero club of Canada has called off the banquet which was to have been tendered to the American sailors because of the fist fight indulged in by two of the men.

The Alberta Federation of Labor in conference at Edmonton declares that the provincial government is adopting an attitude of indifference and apathy toward social legislation proposals.

The Systems Board of Adjustment of the C.P.R. have expressed their willingness to enter into any co-operation with other organizations to relieve the unemployment situation.

Amalgamation of all organizations of aboriginals, was decided at a meeting held in Ottawa. The new organization will be known as the Canadian Navigators' association.

PRICE CUTTING

IS RAMPANT IN GREAT BRITAIN

Business Men Acting on Axiom "First Come, First Served"

London, January 4.—England is in the throes of a price-cutting campaign ever known. Clothing, shoes and hats are coming down in price. It is not only the price level. Canned goods, food and furniture are also in the sales lists.

Tens of thousands of women, with an accompanying army of men, are bargaining. Prices of garments for both men and women in many cases are 50 per cent. below manufacturing costs. Men's all wool suits are being sold by one large tailoring establishment at \$15 and they include blue serge, indigo dyed and tweeds.

Every one of these carries an all-wool garment, a shirt, a blouse, which are at from \$15 to \$10 per pair, three months ago are now sold for \$5.50.

The bottom has dropped out of all demand during the past year," says the managing director of one of London's biggest stores.

"For the first time since the war with the money stringency in the United States. Large orders were cancelled," he continued, "with great ease, when the rate of exchange rose so sharply against our continental neighbors and there are further cancellations from the continent."

LOCAL NEWS

Pianos tuned—J. E. Welton.

Geo. T. White, Balmoral, is visiting at the Coast.

Meet your old friends at the annual of the Friday evening next.

Boyle's orchestra at the Alexandra Club dance in the armories, January 28th.

Charlie Proctor, of the Royal Bank, is spending his vacation at his home here.

The London Grill made an assignment last week. W. T. Bottrell is in charge of winding up proceedings.

Hockey at the rink tonight! Lacombe vs. Red Deer. This is sure to be a good game. Let's hear from you tonight.

There will be a dance held at Balmoral school house on Friday evening, January 21st. Ladies please bring lunch.

All returned men in Red Deer and district are invited to a supper and smoker in the armories on Friday evening.

The Memorial and Building Fund Committee will hold a meeting in the city hall on Friday, the 28th. Keep this date open.

Mrs. James Leyden, of Milnerton, is making a very satisfactory recovery at the Memorial Hospital after an operation for the removal of a tumor.

The annual meeting of the Red Deer Butcher and Cheese Manufacturers' Association will be held at the office of A. H. Hopworth on Saturday, January 29th.

The regular monthly meeting of the U.F.W.A. of Grosvenor Lodge, No. 229, will be held at the home of Mrs. Arthur Rogers on Wednesday afternoon, January 26th.

Alexandra Club dance in the Armories, Wednesday, January 26th. Boyle's orchestra from Edmonton. Dancing at 9 o'clock. Refreshments. Admission \$1.00. Proceeds for Hospital.

A meeting of the Alberta Natural History Society will be held in the City Library on Friday, January 21st, at 8:00 p.m. Paper by Mrs. Cassola, "Observations of bird life at Gaetz Lake and Sylvan Lake."

The annual convention of the Alberta Agricultural Pairs Association will be held in the city of Calgary on February 16th and 17th. The annual convention of the Dairywomen's Association of Alberta will be held in Calgary at the same time.

J. F. Day, vice-president of the Western Fairs Association, will leave Saturday next to attend the annual meeting of the Association, which will be held in Regina on the 23rd and 24th of January. Mr. Bjorklund is the delegate from Red Deer.

The weather the end of the week took a sudden drop and Saturday night the city glass went to thirty below. This was the coldest night of the winter. Sunday the weather moderated and since then has not been so cold. The chances all point to warmer weather now.

The 89th Battalion Association will hold their second annual dinner at Calgary on Tuesday, January 25th, at the Board of Trade rooms, Lougheed building, to be followed by a dance at the Plaza. An invitation extended to all former members of this Battalion in the Red Deer district to be present.

The regular monthly meeting of the Ladies' Auxiliary of the W. V. A. will be held at 3 o'clock, in the Armories, on Thursday, the 26th of January. Business of the district for the year 1921, and to make some arrangements in connection with the Soldiers' Wives' Convention to be held in February. Note change of time.

Messrs. Hugh Baird, of Edmonton, and James Baird, of Lethbridge, were in the city over the week end in connection with the condition of their aged father at the hospital.

Mr. Baird, Sr., has not improved as much as was hoped for some time ago. Although the broken leg has healed, the shock to the system has left him very frail.

The delegates appointed by Red Deer Local, U.F.A., to the big convention in Edmonton this week are: D. McKinnon, J. R. Sandham, G. W. Smith, R. A. Van Slyke, J. White, J. W. Evans, Mr. Goodrich, L. M. Gaetz, as district organizer, is also in attendance. R. E. Pliska, Hillsdown, H. Messers, Condit and R. Pengelly, Springvale, are delegates.

Owing to the ladies being busy with other engagements, the meeting at the city hall to consider re-organization of the Ladies' Hospital Aid, has been postponed to Monday, January 24th, at 3:30 p.m. The hospital is in need of such service as the ladies can give, and have given in the past, and this re-organization will give the opportunity for helping in this vital civic work.

HILLSDOWN

The next "Sotha" of the Hillsdown U.F.A. Local will be held on Friday evening, January 28th, in the school house, at 8 p.m.

A lecture, illustrated by lantern slides, on "A Peep into Nature Through the Microscope," or some other equally interesting and important subject will be given, and a musical treat will be provided in the shape of selection on the piano and violin by Mr. Jas. Foulds and Arthur Foulds respectively. Admission, 35c; children under 15, free.

The highest or any tender not necessarily accepted. Dated at Red Deer, Alberta, this 18th day of January, A.D. 1921.

PAYNE & GRAHAM, Solicitors for the owner.

Jan. 19, 2w.

MUNICIPAL HOSPITALS MEETING

(Continued from Page 1)

Hospital scheme, they believed, and in this the three Councils agreed with them, that they could well maintain an independent hospital in the territory including principally at Innisfail as a Municipal Hospital district. They served a lot of territory beyond these three municipalities. Councillor Darragh, of M.D. 33, said his district, round Milnerton, favored Innisfail.

Reeve Gibson, and Secretary-Treasurer Carruthers presented a Municipal Hospital district for Lacombe constituency, taking in Ponoka on the north, Humber on the northwest, and Alis on the east, down to the Red Deer river. They were quite satisfied they had the territory and especially the population north of the Red Deer to support such a Hospital, probably at Lacombe, and they could not see how any material moving could be effected in the cost of maintenance and operation by the three districts, when a 20 bed sub-hospital would be required at Lacombe, a 15-bed sub-hospital at Innisfail, and 10-bed sub-hospital at Eolville and Rocky Mountain House.

Mr. McKay went into some detail on figures of assessment and maintenance of large districts. A 10-bed hospital would cost approximately 20 dollars, a 25-bed hospital 30 dollars. There were eight Municipal Hospitals in operation.

Commissioner Stephenson made a conciliatory and polite speech, sympathizing with the ambitions of the Innisfail and Lacombe districts, and deprecating any feeling of jealousy by Red Deer or any desire to interfere with the best Hospital scheme for the several districts. Red Deer had maintained a hospital for twenty years which had served a large territory, and it was willing and able to continue it with or without the taxes of the district. If the farmers wanted the basis of the provision of hospital service by municipal taxation, instead of altogether by fees then, it was for them to decide. The city was sure would meet them on any reasonable basis, whether in going in to the district with them, or in allowing them to form their own district and agreeing to provide the higher surgical service at a stated cost. He was confident that the people would not object to a little additional taxation, if they believed that no sick people should be debarred from hospital attendance because of its cost, but that the municipality could well supply such service out of taxes. He reviewed the situation and hospital needs of all the districts, and left the matter to the representatives.

Reeve Gibson bore testimony to the fact that the Lacombe district was a large district, and that it was a point of ten miles west of Red Deer. Organizer McKay objected to such a condition for the Red Deer district, and Mr. Gibson was disposed then to leave south of the Blindman in 399 to Red Deer. He recognized the Medicine Hills as a boundary between Lacombe and Eolville, but wanted territory which would go to the railway running from Lacombe to Humber.

The meeting pronounced in favor of hospital districts, without specifying the number, and concluded with votes of thanks to the City Council of Red Deer, to Mr. McKay, and to the chairmen.

In the evening the delegates met to consider proposed boundaries for Red Deer district.

SHIPPING DAYS FOR HOGS

I will ship hogs for the Association on Thursday, January 20th and Friday, January 21st.

If you have not listed your hogs for shipment, please phone me at 115 and give the day or R249 during the evening.

I have some attractive listings of dairy stock, and one registered hog; also some calves, rising 1 year. If you want to buy, sell or exchange anything make use of your own organization.

M. GAETZ, Manager, Central Alberta Live Stock Shipping Association.
